

## NEW PRODUCTS PERCUSSION

# TD-6KV

V-Tour Series

**Available:** Now **RRP:** £1099

The TD-6KV takes one of Roland's most popular V-Drum kits and makes it even better thanks to a mesh snare pad, new gum rubber pads with dual-trigger capabilities, an improved vertical kick trigger and more. The easy-to-use sound module sports a sleek black look with a blue LCD and brand new kits and patterns, all at a great price. This affordable V-Drums set is based on an updated TD-6V Percussion Sound Module, mesh pad for snare drum, new rubber pads and cymbals, a new vertical kick trigger and new hi-hat controller.

### THE LOWDOWN: SELECTED SPEC

- TD-6V offers 1024 drum and percussion sounds with all-new kits and backing patterns
- 1 x PD-80R mesh V-Pad for snare drum – supports separate head/rim triggering
- 4 x PD-8 dual-trigger rubber pads for playing rim
- 2 x CY-8 cymbal pads with 'swinging' motion including realistic cymbal 'chokes'
- 1 x KD-8 kick trigger pad with vertical design for natural feel and reduced tremble – double bass pedal compatible
- 1 x FD-8 hi-hat controller allows for smooth hi-hat sounds from open to closed
- Optional MDS-3C stand with matching black finish
